Approval: Community Park Master Plan Contract Agenda Item # 7A

Issue

Should the Carol Stream Park District enter into an agreement with Wight & Company, Darien, Illinois, for creation of a conceptual Master Plan at Community Park.

Background/Reasoning

Following the District's acquisition of 17+ acres of open and recreational space at Community Park, the Board directed staff to pursue professional services to create a Master Plan that would meet the needs of residents in what has been an underserved area of the community. The comprehensive process included:

- RFQ Packets sent to eight firms on November 16, 2020.
- Staff reviewed RFQ, and created a list of four firms to be interviewed by the Board of Commissioners. Those interviews took place on February 1, 2021.
- Based on the Board's interview and subsequent scoring, Wight & Company was chosen as the preferred firm.
- Staff then entered into negotiations with Wight & Company for a proposal to create a Master Plan for Community Park. Key factors include board, stakeholder, and community input as well as design and budget estimates. All items that will prepare the District to apply for state/federal grants when they become available.

Board Summary

849 W. Lies Road, Carol Stream, IL 60188 630-784-6100

To: Board of Commissioners

From: Shane Hamilton, Director of Parks & Facilities

Date: March 8, 2021

Approval: Geothermal Update – Emergency Repair **Agenda Item #** 7C

Issue

Should the Carol Stream Park District approve an emergency geothermal repair with Voris Mechanical, Glendale Heights, Illinois.

Background/Reasoning

Staff recently became aware of a serious concern for Fountain View Recreation Center's Geothermal System. The Executive Director immediately notified the Board of a problem, and assigned staff to investigate options for repair. As described below, the failure of one of the main components of the system is eminent; compounding that is the lead time required for replacement parts, and the fact that the building will have no heat or cooling throughout the duration of the repair. Timing is critical.

Staff consulted with Corporate Counsel, John Wyeth for his opinion on the application of Park Code Section 8-1(c) which includes accommodations for emergency expenditures and exemption from competitive bid. Since the geothermal system is a vital component to the safe operation of a major building, affects a large number of users, and could lead to a shutdown, corporate counsel provided an opinion that the acquisition of services to repair the geothermal system constitutes an 'emergency'.

Contracts for emergency expenditures require approval by three quarters of the members of the Board. The critical factors giving rise to this emergency include:

- System failure is imminent; it creates a need to expedite ordering materials for repairs.
- There is an extended lead time to obtain parts necessary to make the repair.
- Fountain View Recreation Center can't remain open if system fails.

Board Summary

849 W. Lies Road, Carol Stream, IL 60188 630-784-6100

This is a condensed review of the system failure:

- The system has 3 main modules; module 3 is the one on the verge of failure.
- Within each module are heat exchangers and compressors. One of the heat exchangers in module 3 has a hole in it which is allowing Freon to transfer back and forth between compressors.
- The heat exchanger needs to be replaced in module 3 with an approximate cost of \$70,000.
- In order to replace the heat exchanger, the entire module needs to be disassembled.
 While the module is apart, the recommendation is to replace both compressors within that module. The unintended exchange of Freon between the compressors has reduced their life expectancy.
- This entire repair of module 3 is projected at a total not to exceed \$110,000.
- The work will take an estimated one week.
- The building will have no heat or cooling throughout the duration of the repair making timing incredibly important.

Cost

The funds for the project will come from the Capital Budget Fund, GL #42-5-11-00-723.

Public/Customer Impact

The geothermal system at the Fountain View Recreation Center is a vital component to the safe operation of a large building, affects a large number of users, and is likely to lead to an unscheduled shut down if not repaired.

Recommendation

Recommend that the Board approve a monetary value not to exceed \$110,000 for an emergency repair of Fountain View Recreation Center's geothermal system by Voris Mechanical, Glendale Heights, Illinois.
